DETAILED ACTION

1. Claims 18-30 are pending in the application.

Response to Arguments

2. Applicant's arguments filed on April 28, 2005 have been fully considered but they are not persuasive regarding written description requirement. In regard to indefiniteness rejections, the examiner agrees with the applicants arguments that boron is directly attached to alkenyl group. In regard to written description requirement, it is true that on page 5, the variable R is defined as ---may be an alkyl or alkenyl group as defined above -----. However, it is not defined above at any place in the specification. The value of R variable is neither defined in the specification as C1-C8-alkyl group or C2-C6-alkenyl group nor by Schummer (Tetrahed.).

Conclusion

3. Rejection under 35 U.S.C. 112, second paragraph is now withdrawn in view of persuasive arguments.
4. Rejection of claims 18-30 under 35 U.S.C. 112, first paragraph is maintained for the reasons of record.
5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
